1 | GETTING STARTED

Logging In

- If you are a free trial user, or you have purchased a subscription directly from Fastcase, log in at fastcase.com/login using your email address as your username and the password you created at signup.
- If you access Fastcase through a bar or other membership association, click on the Participant Bar Member link and select your bar association. You will then sign in with your bar credentials and click on the Fastcase link or logo.

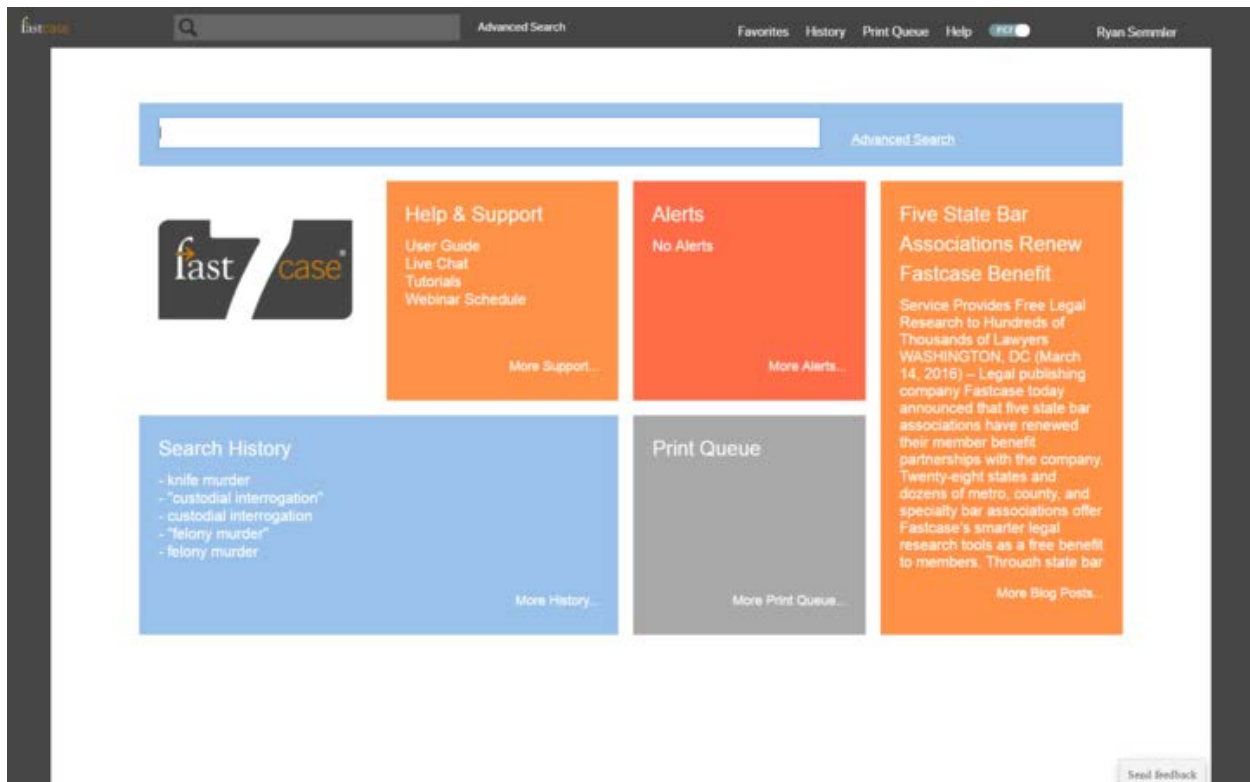

Password

- If you are a retail subscriber, then you can change your Fastcase password by going to the **Options** menu, then selecting **Account Settings**.
- Bar association subscribers: Your log in information is controlled and maintained by your bar association. Contact the association directly for assistance.

Personalized Start Page

Your research begins on a personalized start page. On this page, you will find a basic search field, Help & Customer Support, Alerts, your recent search history, recent news, and your Print Queue. You can also switch to Advanced Search mode by clicking on **Advanced Search** at the top of the page.

You can always navigate back to this start page by selecting **the Fastcase logo on the upper left side of the screen**.

Search

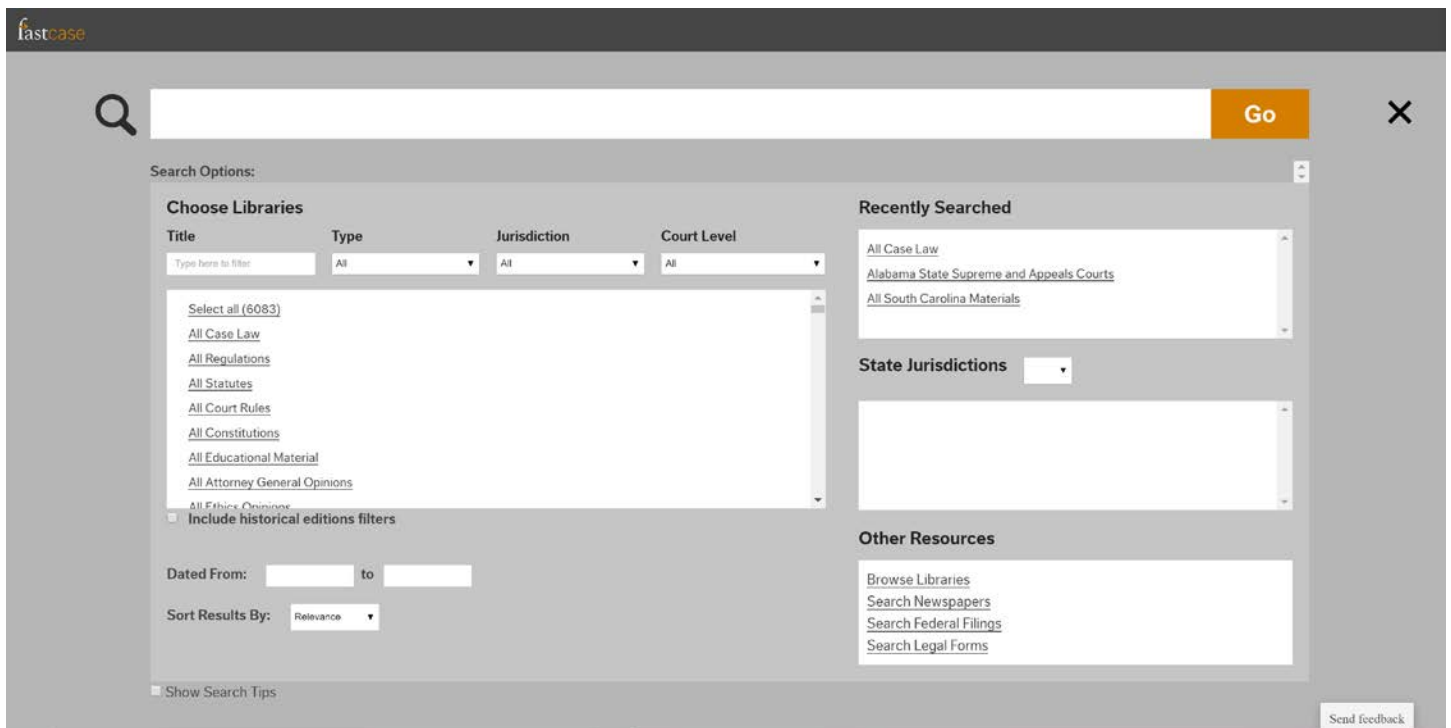

Quickly pull up a case you already have in mind using **Search**. Use a case citation, natural language, or enter in a keyword search. This search defaults to all libraries, all jurisdictions.

Advanced Caselaw Search

For more involved research projects, go directly to **Advanced Search** by clicking on the link to the right of the **Search** field.

The **Advanced Search** page contains our full-featured search function. From there you can still perform the three different types of searches: **Keyword Search**, **Natural Language Search** or **Citation Lookup**, simply by entering your search phrase into the **Search** field. You do not have to specify which type of search you are performing. Here you can change the jurisdiction(s) you would like to search within, select different sources of material, and limit the publication date range of your results. On the right you can select a state and search across all sources for that jurisdiction, and you can choose to sort your search results by relevance, citation, date, or alphabetically.

2 | SEARCH FOR DOCUMENTS

Searching for Caselaw

There are three ways to search for cases on Fastcase: by **Keyword**, **Natural Language** or **Citation Lookup**.

Keyword Search (with Boolean operators)

Searching by **Keyword** using Boolean operators is the most powerful and flexible way to search for electronic information. It is also very easy to use. Fastcase uses the standard Boolean operators described below:

OPERATOR	EXAMPLE	DESCRIPTION
AND, &	copyright AND preemption	Results must contain <i>both</i> the words “copyright” and “preemption.”
OR	landlord OR lessor	Results must contain <i>either</i> the word “landlord” <i>or</i> the word “lessor.” (They may contain both words).
NOT	vehicle NOT car	Results <i>must contain</i> the word “vehicle” but <i>must not contain</i> the word “car.”
w/3, /3	capital w/3 punishment	Results must contain the word “capital” within 3 words of the word “punishment.” You must specify a number for how far apart the terms may be found.
, !	litig	Results must contain some variation of the stem “litig” such as litigation, litigated, litigator, etc.
?	advis?r	The ? works as a single letter wildcard. Results must contain some variation of the word advis_r, such as adviser or advisor.
“ ”	“felony murder”	Results must contain the precise phrase “felony murder.”
()	(security OR pledge) AND assignment	Parentheses are used to define the order of operations when you use multiple Boolean operators.

Examples of the operators are also visible in the **Show Search Tips** box on the [Advanced Search](#) page.

Here are a few more things to keep in mind when you are performing a keyword search on Fastcase:

- Our search engine automatically omits certain common words (e.g., the, it, etc.) from your query. The search runs more efficiently without these common “noise” words.

- Fastcase uses an “implied AND” operator. This means that if there are multiple words in your search query and you do not specify a Boolean operator to connect them, Fastcase will treat your search as if you had placed an “AND” between each term. For example, if you type: summary judgment order, Fastcase will read that as: summary AND judgment AND order. Only cases containing ALL of those terms will be returned as results. If you would like to search for cases that contain the exact phrase “summary judgment order” (where those three words will appear in documents directly next to each other and in the same order), you should put the phrase in quotation marks.
- Our search engine will accommodate a search up to 500 words long. For the purposes of search length, a Boolean operator counts as a word.

Citation Lookup

- Pull up a case using the reporter citation by entering the reporter volume number, the reporter abbreviation, and the first page number.
- This type of search works in both **Search** and **Advanced Search**.

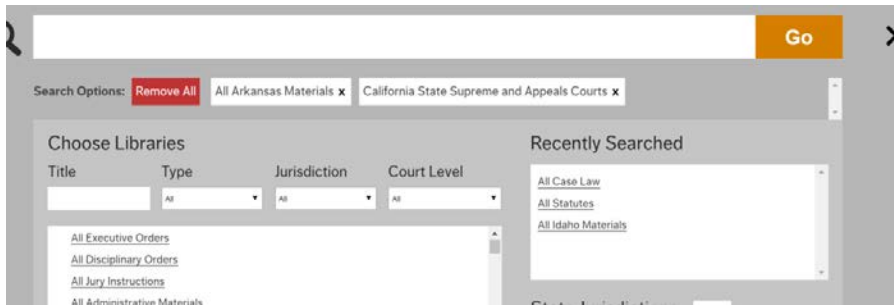

Natural Language Search

Natural language searches are much less precise than **Keyword** searches, but they are good place to start if you are new to legal research, or if you are delving into a new area of the law. There are a few important aspects of a **Natural Language Search** that you should bear in mind:

- The first results on the page are the cases with the highest relevance scores based on your overall mix of search terms.
- Your search results may not contain each and every one of your search terms.

Select a Specific Jurisdiction for Your Search

- Scroll down to the middle of the **Advanced Search** page to the heading **Select Jurisdiction**.
- Select one of the groups of jurisdictions listed by clicking on it, or select multiple jurisdictions one at a time. The jurisdictions you have selected will appear under the search bar and you can remove them by select the “x” next to each jurisdiction.

- Check the box next to the name of the state or court you wish to select.
- You can select as many courts as you would like and you can select courts across different levels and jurisdictions.

Searching for Statutes, Regulations, Constitutions and Court Rules

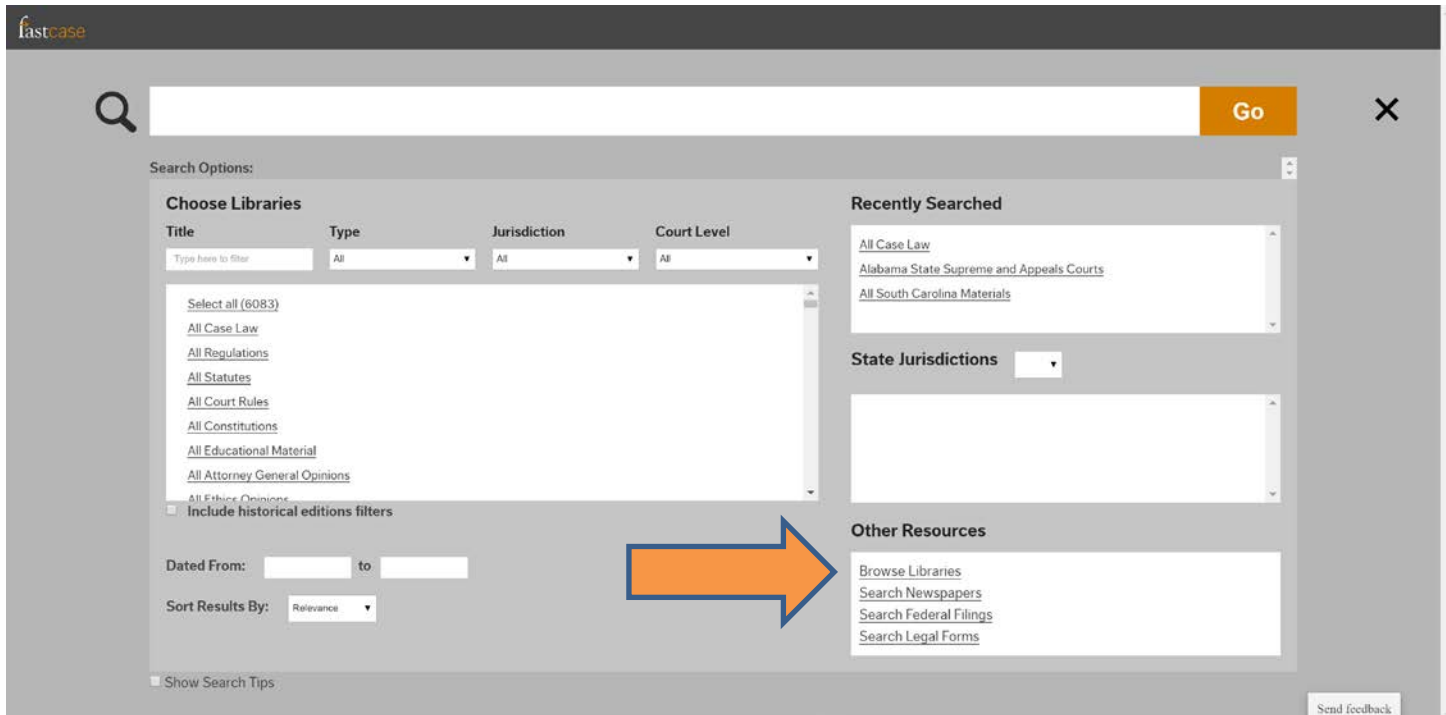

Fastcase includes statutes, regulations, court rules, and constitutions from nearly all fifty states and the District of Columbia. In most cases, we have incorporated the content into our database so that you can browse and search the relevant statute, regulation, court rule, or constitution within Fastcase.

In some cases, Fastcase provides hyperlinks to the free official versions of these resources from the Web as a convenience for our subscribers. Collecting them all in one place allows you to find these resources quickly without having to search for them each time.

Browsing Statutes Using Outline View

In addition to searching, Fastcase also allows you to browse codes, regulations, court rules, constitutions, CLE books, jury instructions, treatises, and other documents using our Outline View format.

- To get started, go to “Advanced Search,” then click on the link in the lower right hand corner labeled “Browse Libraries.”

- Select the library you would like to review by clicking on the name.

Highlighting Search Terms

- All of your search results will appear on the narrower panel on the left.
- If you want to highlight a particular search term, select the term from the **TERM** drop-down menu.

Navigate Within a Document

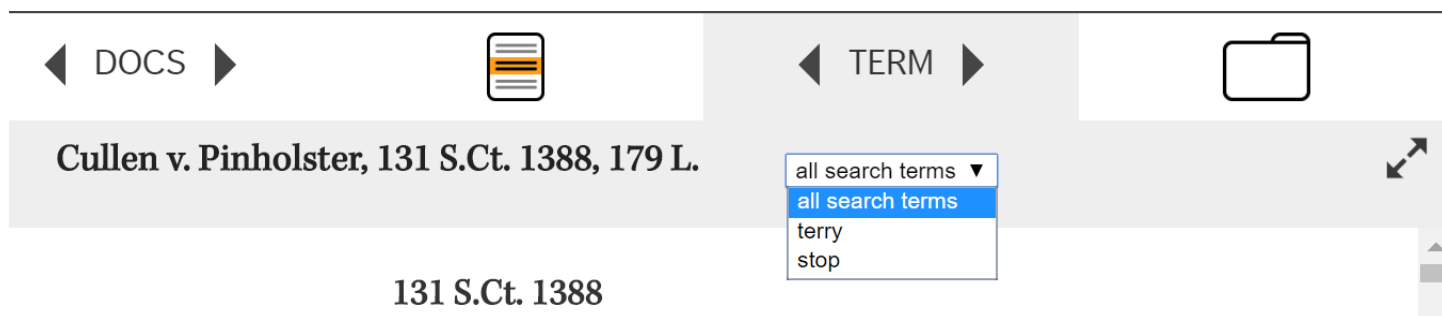

- Jump to the paragraph with the densest concentration of search terms by clicking the [most relevant paragraph](#) icon.

- To search within your document, use your browser's find command by pressing **Ctrl + F**.
- Jump to the next search term by clicking the forward arrow next to the "Term" icon.

- Jump to the previous search term by clicking the back arrow next to the "Term" icon.
- You can also select which search terms to highlight. Simply hover your mouse over the "Term" icon and select a terms from the dropdown.

Copy and Paste

Fastcase can help you save time drafting legal briefs and other pleadings with two handy copying tools.

- Select the text you want to copy with your mouse.

- Place your mouse at the beginning of the text you want to copy and click and hold the mouse button. Drag your mouse to the end of the selection and then release the button. The selected text will be highlighted in blue.

- A pop up box will give you the choice of copying the text, or copying the text with citation.

[550 U.S. 548] [127 S. Ct. 1961] Justice Souter delivered the opinion of the Court.

Liability under § 1 of the Sherman Act, 15 U.S.C. § 1, requires a "contract, combination . . . , or conspiracy, in restraint of trade or commerce." The question in this putative class action is whether a § 1 complaint can survive dismissal when it alleges that major telecommunications providers engaged in parallel conduct unfavorable to [550 U.S. 549] competition, absent some factual context suggesting agreement, as distinct from identical, independent action. We hold that such a complaint should be dismissed.

- Copied text can then be pasted into a word processor of your choice.
 - If you selected "Copy With Citation" the citation will be pasted below the text you selected.

Fastcase Relevance Score

- Fastcase’s smart search technology assigns a **Relevance Score** (0%-100%) to each document in your search results based on the search terms used in your query.
- The score is displayed in the far left-hand column on the results page under the heading **Relevance**.
- The purpose of the Fastcase **Relevance Score** is to tell you which documents on your list of search results are more likely to contain a substantive discussion of the search terms you entered. The higher the percentage, the more likely the document contains helpful information.
- By default, your search results will be displayed in the **Relevance Score** order (meaning the case with the highest relevance score is at the top of the list).

The screenshot shows a search results page for the term "fire". The results are sorted by Relevance Score. The first result has a 100% score and is titled "Fire Protection Funds, 46 D.&C. 303 (Pa. D. & C., 1943)". The second result has a 98% score and is titled "Bridgeport Fire Co. v. Bushar Corp. (Pa., 2010)". The Relevance Score column is highlighted with an orange box.

6 | PERSONALIZED FEATURES

Fastcase dynamically tracks what you are searching for and uses this information to tweak your user interface, with the goal of making your research more efficient. Fastcase also lets you set certain display preferences.

Recently Searched Jurisdictions

Fastcase tracks the jurisdictions you have selected for your searches in two places, making it easier to select your most frequently searched jurisdiction.

- The first time you search, there will be nothing in the Recently Searched box on the **Advanced Search** page.
- Once you have run a search where you narrowed your search by jurisdiction or document type, the most recent search filters will show on the right.

The screenshot displays the Fastcase Advanced Search interface. At the top, there is a search bar with a magnifying glass icon on the left and a 'Go' button on the right. Below the search bar, the 'Search Options' section is visible. It includes a 'Choose Libraries' section with a list of filters: 'All Case Law', 'All Regulations', 'All Statutes', 'All Court Rules', 'All Constitutions', 'All Educational Material', 'All Attorney General Opinions', and 'All Ethics Opinions'. There is a checkbox for 'Include historical editions filters'. Below this, there are fields for 'Dated From' and 'to', and a 'Sort Results By' dropdown menu set to 'Relevance'. At the bottom left of the search options, there is a checkbox for 'Show Search Tips'. On the right side of the interface, there is a 'Recently Searched' section with a list of items: 'All Case Law', 'Alabama State Supreme and Appeals Courts', and 'All South Carolina Materials'. Below this is a 'State Jurisdictions' dropdown menu. At the bottom right, there is an 'Other Resources' section with links to 'Browse Libraries', 'Search Newspapers', 'Search Federal Filings', and 'Search Legal Forms'. A 'Send feedback' button is located at the bottom right corner of the interface.

Last 10 Searches

- You can find the last ten searches you performed on the **Search** page under the heading **Search History**.
- The searches are listed according to the search terms you used. If you do not see the search you are looking for, you can always click on more history to see older searches.
- If you click on any of the listed searches, you will be taken directly to the corresponding search results.

7| USING AUTHORITY CHECK

Overview

Authority Check is Fastcase's integrated citation analysis tool. You can use **Authority Check** in many ways, including:

- To generate a list of later citing cases to find related authority on your topic.
- To prioritize your research by identifying the most frequently cited cases within your list of results.

Authority Check (featuring **Bad Law Bot**) is not a citator like Shepard's or Keycite; it does NOT include editorial information telling you whether a case is still good law. **Authority Check** information is computer generated and dependent upon later citing cases using accurate official reporter citations.

Generate a List of Later Citing Cases

- Start by pulling up the case you are interested in. Make sure you are on the page with the full text of the case.
- Click on the flag icon to generate the **Authority Check Report** with a list of later citing cases. The report will load in a separate pane on the left side of your browser.

Bad Law Bot - what other courts have said about this case

When a court cites a case that has been overturned or the Bluebook requires that the court indicate the negative treatment in the citation, the Bad Law Bot reads through the citations in Fastcase, "signal information" in citation. It then reports what other courts have said about the case when citing it, flagging negative history reported by the courts below.

Identify Frequently Cited Cases

- On the results page, the number to the right of each case under the **Authority Check** heading corresponds to the number of times the case has been subsequently cited in other cases.

Relevance	Document	Date	Authority Check	
			Results	Database

- Sort the most frequently cited cases overall to the top of the list by clicking on the heading, **Database**.
- Sort the cases most frequently cited by other cases in your search results to the top of the list by clicking on the heading, **Results**.

Identify Negative Citation History

The *Bluebook* requires that courts indicate negative history of cases cited within opinions. Fastcase's **Bad Law Bot** takes advantage of this data by using algorithms to find these negative citation histories, then flags those cases and provides links to those cases.

Here, we looked up *Claughton v. Claughton*, 347 So.2d 437. Note the red flag next to the case name, indicating negative citation history for the case.

Once you click through to *Claughton*, you'll also notice that there's a red flag in the **Authority Check** area.

**Bad Law Bot - what other courts have said about this case**

When a court cites a case that has been overturned or reversed (even on other grounds), the Bluebook requires that the court indicate the negative history right there in the citation. Bad Law Bot reads through the citations in Fastcase, identifying this kind of negative "signal information" in citation. It then reports what other courts have said about this case when citing it, flagging negative history reported by the courts. The full list of citing cases is below.

Bad Law Bot finds negative citation history by taking all the cases that have cited *Claughton* and examining how they've cited to *Claughton*. If a court has negatively cited to *Claughton*, **Bad Law Bot** will link you to that case. Keep in mind that **Bad Law Bot** determines negative case history by using algorithms, and it is not intended to be a complete replacement for a full editorial citator or for reading all later-citing cases. A red flag means that there's likely negative treatment, since a court has said as much by their use of a negative citation, but no red flag does not necessarily mean that a case is still good law. If a case has been overturned but no court opinion has cited to it yet, **Bad Law Bot** won't be able to find any citation signal information.

8|USING THE INTERACTIVE TIMELINE

The **Interactive Timeline** is a powerful data visualization tool unique to Fastcase. By allowing you to view up to four different attributes of each case at a time, your search results jump off the page.

Reading the Timeline

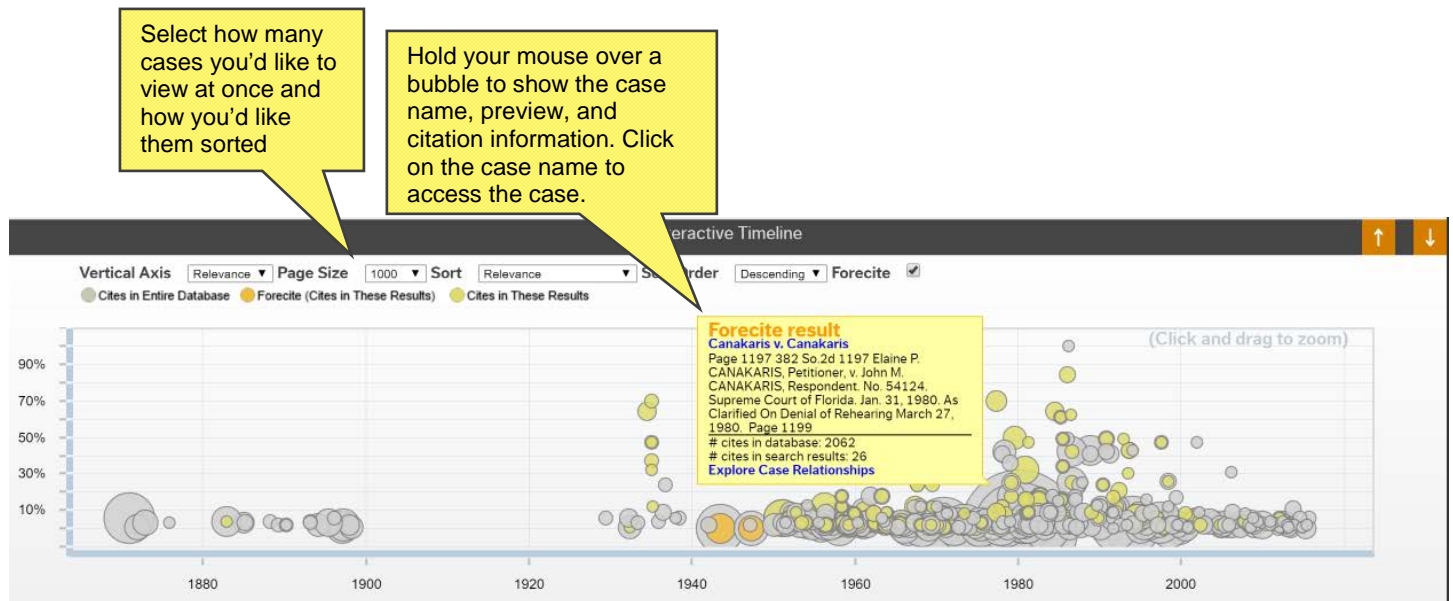

- To access the **Interactive Timeline**, start by running a search and viewing your list of search results. At the bottom of the results page is the timeline for your results. By default, your timeline will display **Relevance View**.

- Each case in your search results is represented on the **Interactive Timeline** by a gray circle.

The **Interactive Timeline** tells you at least four things about each case:

- The date of each decision (x-axis).
- The **Relevance Score** of each decision (y-axis).
- The number of times each case was cited overall (diameter of gray circles)
- The number of times each case was cited for your search terms (diameter of gold circles).

- You can switch to **Court Level View** by selecting **Court Level** from the **Vertical Axis** filter.

- This time, your timeline will look something like the image below:

- Now you can see the court level of each decision (y-axis).

Identifying Authoritative Cases

By illustrating how relevant each case is based on your search terms and how many times each case has been cited by subsequent cases, the **Interactive Timeline** quickly identifies seminal and authoritative cases.

- For the best results, first make sure that you are in **Relevance View**.
- Then look for cases with large diameters that appear towards the top of the page since frequently cited cases with high **Relevance Scores** are the most likely to be authoritative.
- Here is an illustrative example: if you perform a keyword search for “second amendment” and arms, and open the **Interactive Timeline** in **Relevance View**, you will see something that looks like this:

- It is easy to spot authoritative cases on the timeline – look for circles with large gold and gray diameters as well as circles that appear higher up than other contemporaneous cases.
- On the timeline pictured above, these four cases – all key Second Amendment decisions – stand out.

From left to right:

- 1) Presser v. Illinois, 116 U.S. 252 (1886).
- 2) United States v. Miller, 307 U.S. 174 (1939).
- 3) Adams v. Williams, 407 U.S. 143 (1972).
- 4) Ashcroft v. Iqbal, 556 U.S. 662 (2009).

- The timeline also illustrates the nearly seventy-year gap in Second Amendment cases presented to the Supreme Court as well as the surge of Second Amendment lawsuits in the last forty years.

Fastcase Tip: Access the **Interactive Timeline** from **Authority Check**, too.

9 | FORECITE

When you perform any search on Fastcase, **Forecite** goes the extra mile and identifies important cases that can easily be missed by ordinary searches. **Forecite** enhances your ordinary search result by carefully and comprehensively analyzing the citation structure of each case in your results list. It looks for decisions that are frequently cited by other decisions in your search results but do not contain all of your search terms. **Forecite** will notify you of these additional cases at the right of the results page.

- Start by performing a **Search**.
- On the results screen, the panel on the right will notify you if **Forecite** has found additional results based on your search results.
- Clicking on “click here” will expand the preview text for the **Forecite** results. Clicking the case name will open the full text of the case.

10|HEIN ONLINE

Fastcase has partnered with William S. Hein & Co. to offer its subscribers exclusive access to law review articles on Fastcase. Hein Online Law Review search results appear for free within Fastcase. A Hein Online subscription is required to view the full text of the law review search results. Daily and weekly subscriptions to Hein Online are available through Fastcase to offer flexibility based on your legal research needs.

Search HeinOnline

To start searching for law review articles, from the **Advanced Search** page select All **Hein Online Law Reviews** from the “Choose Libraries” section. You can also select a particular review or journal from the **Choose Libraries** section, such as Pace Law Review, etc.

The screenshot displays the search interface for Hein Online. At the top left is a magnifying glass icon next to a search bar. Below this is the 'Search Options:' section. The 'Choose Libraries' section is prominent, featuring a 'Title' field with the placeholder 'Type here to filter'. To the right of the title field are three dropdown menus labeled 'Type', 'Jurisdiction', and 'Court Level', each currently set to 'All'. Below these filters is a large list of library options, including 'Select all (6083)', 'All Case Law', 'All Regulations', 'All Statutes', 'All Court Rules', 'All Constitutions', 'All Educational Material', 'All Attorney General Opinions', and 'All Ethics Opinions'. At the bottom of this list is a checkbox labeled 'Include historical editions filters'.

Connect to Clio

If you use Clio's Cloud-Based Practice Management Software you can link your Clio account to Fastcase to quickly record billable hours as you research.

From within Fastcase, roll over the **Welcome** message on the upper right side of the screen. Then select **Connect to Clio**. You will be redirected to the Clio site and prompted to login. Click the large green button that reads **Yes, Let's Connect**.

Track Your Billable Research Time

When you connect your Clio account to Fastcase, a dropdown menu will appear in the top right corner of the black and orange toolbar. This will allow you to select different Clio matters and set a timer for each client as you work. Start the timer by clicking the blue play button to the right of the dropdown menu.

Clicking the stop button will automatically save your billable research time to Clio. You can also go directly to a particular matter in Clio by clicking the link within Fastcase.
