

10 | FORECITE

When you perform a **Search** on Fastcase, **Forecite** goes the extra mile and identifies important cases that can easily be missed by ordinary keyword searches. **Forecite** enhances your ordinary search result by carefully and comprehensively analyzing the citation structure of each case in your results list. It looks for decisions that are frequently cited by other decisions in your search results but do not contain all of your search terms. **Forecite** will notify you of these additional cases at the top of the results page.

- Start by performing a **Search**.
- On the results screen, at the top of the **Suggested Results** panel on the right will be the **Forecite** results.

- Once you've clicked on the case, you can add the results to your print queue and generate an **Authority Check Report** for each decision.
-
