

1 2 | Docket Alarm

What is Docket Alarm?

Docket Alarm is a docket research and analytics platform. Users can conduct full-text searches and set up alerts and tracking for cases across federal courts and a growing list of state courts.

Seeing Docket Alarm Results in Fastcase

Docket Alarm can be selected as an option from the Jurisdiction and Sources page. You can search all briefs, pleadings and orders, or just one category at a time.

Getting More Information about Docket Alarm
